

## Delivers a Quick, Dependable Return on Your Investment

The First Data Restaurant Solution is the all-in-one point-of-sale system that lets you manage every aspect of your restaurant for profit-building accuracy and efficiency.

Designed specifically for small and independently owned restaurants, its low initial cost and money-saving benefits mean the First Data Restaurant Solution can more than pay for itself in just a few months—and keep paying you for years to come.

The First Data Restaurant Solution helps you save by cutting the time your servers and managers spend on administrative tasks. It helps you improve guest-check accuracy and reduce loss. And it helps boost sales by promoting special items at the table.

## Here's How You Could Save Thousands per Year

Here are examples of just three of the ways First Data's Restaurant Solution could save time and money for a small restaurant:

- Four servers per shift
- Two shifts a day
- Six days a week

That equals 48 shifts a week, 192 shifts a month.

## How Much Could You Save?

The worksheet on the back of this page will help you see how much your restaurant can save with the First Data Restaurant Solution.

## End-of-Shift Server Reporting – Save \$256 per Month

The First Data™ Restaurant Solution tracks all sales, including a breakdown of payment types, and calculates each server's bank. Servers print their reports and settle with the house in minutes.

<b>The Old Way</b>	<b>With First Data Restaurant Solution</b>	<b>Savings</b>
30 mins.	10 mins.	20 mins./server/shift
per server/shift	per server/shift	x 192 shifts/month
		<hr/>
		64 hrs. (3,840 mins.)/month
		x \$4/hr. server wage
		<hr/>
		<b>\$256 per month</b>

## Payroll Tracking and Management – Save \$100 per Month

The system tracks multiple jobs and calculates weekly payroll to accurately pay each employee for each shift.

<b>The Old Way</b>	<b>With First Data Restaurant Solution</b>	<b>Savings</b>
2 hrs./week	20 mins./week	6.7 hrs./month
		x \$15/hr. manager wage
		<hr/>
		<b>\$100 per month</b>

## Accurate Guest-Check Calculations – Save \$240 per Month

Pre-configured prices for menu items and options minimize the risk of server errors to help ensure customers are charged accurately. \$10 per day is a conservative estimate of the average cost of server errors.

<b>The Old Way</b>	<b>With First Data Restaurant Solution</b>	<b>Savings</b>
Server keys in prices and taxes manually	Preconfigured prices and taxes	\$10/day
		x 24 days/month
		<hr/>
		<b>\$240 per month</b>

**TOTAL SAVINGS**                      **\$596 PER MONTH**  
**\$7,152 PER YEAR**

# How Much Could You Save With the First Data™ Restaurant Solution?

Plug in your numbers, do the math and see how quickly First Data's Restaurant Solution can pay for itself—and keep paying you for years to come.

Savings Opportunity	The Math	Example		Your Restaurant	
		Savings per month	Savings per year	Savings per month	Savings per year
		4 servers/shift 2 shifts/day 6 days/week  \$4/hr. server wage \$15/hr. manager wage		____ servers/shift ____ shifts/day ____ days/week  \$/____/hr. server wage \$/____/hr. manager wage	
End-of-Shift Server Reporting	Save 20 mins./shift x ____ shifts/month x \$____/hr. server wage	\$256	\$3,072	\$_____	\$_____
Payroll Tracking and Management	Save 6.7 hrs./month x \$____/hr. manager wage	\$100	\$1,200	\$_____	\$_____
Accurate Guest-Check Calculations	Save \$____/day in error reduction	\$240	\$2,880	\$_____	\$_____
<b>TOTAL</b>		\$596	\$7,152	\$_____	\$_____
